PROJECTS

Pokémon Pokédex | Java, Spring Boot, MySQL, JavaScript, HTML, CSS, PokeAPI | 2026

- Built a web-based Pokédex displaying Pokémon stats, types, abilities, descriptions and images, with filtering and sorting features, using data from PokeAPI.

BloodLink | HTML, CSS, JavaScript | 2026

- Created a responsive blood donation website that provides information and connects users with blood donation-related services.

Jack 'n Poy Game | C | 2025

- Developed a console Rock-Paper-Scissors game against the computer using basic game logic, random choices and score tracking.

FCFS CPU Scheduling | C

- Implemented a terminal-based First-Come, First-Served (FCFS) CPU scheduling simulation.

EXPERIENCE

Student Project and Activity Leadership | 2024 – Present

- Led academic activities and group projects beginning in the first year of college.
- Coordinated tasks, organized group work and communicated with teammates to complete projects.

Video Editing and Multimedia Production | Group Projects

- Led video editing and assembly for group projects, turning raw footage into finished content.
- Led the editing and production of a short film on mental health advocacy.
- Collaborated with teammates to create an advertisement video.
- Coordinated filming, content planning and scene organization with the group.

SEMINARS AND TRAININGS

BSIT Summer Camp 2026: Empowering Students Through Web Development Skills

- Covered semantic HTML, CSS, JavaScript and Laravel.
